Notes: when doing a sequence of stitches, pay close attention to the ending instruction, etc: YO (K3, YO SL 1-K2Tog-PSSO, YO)X4, You would complete the instructions in ( ) 4 times, making the 'YO' the last move done. If it is followed by K11, then you would do the last YO and K11. If you don't do the last YO, your stitch count will be off on the end of the row.
